EDUCATION

New Jersey Institute of Technology, Newark, NJ Expected May 2026

Bachelor of Science/Master of Science in Computer Science & Cybersecurity and Privacy, GPA: 3.6

Relevant Coursework: Object Oriented Programming, Algorithms, Data Structures, Cybersecurity, Data Science, Computer Architecture/Networks, Operating Systems, Generative Artificial Intelligence, Internet Applications

SKILLS

- **Technical**: Proficient in Java, Python, HTML, CSS, JavaScript, Microsoft Office; Familiar with C, C++, Linux Ubuntu Distribution, Bash scripting language and SQL; Exposed to Ajax, jQuery, PHP
- **Soft**: Adaptability, Resourcefulness, Initiative, Precision, Composure, Reliability, Accountability, Versatility, Active Listening, Persuasive Communication, Perceptiveness, Conceptual Thinking

EXPERIENCE

TechInteg8, Metuchen, NJ October 2024 – Present

Cybersecurity Intern

- Assisted in the configuration, monitoring, and maintenance of security tools such as firewalls, intrusion detection systems, and antivirus software
- Collaborated with IT teams to ensure security controls are integrated into new systems and software deployments
- Conducted research on new cybersecurity trends, threats and technologies to support security improvements

NJIT – Strategic Events and Conf Svcs, Newark, NJ September 2022 – Present

Administrative Assistant

- Created and organized contracts, event briefs, maps, and other essential documents for on-campus events
- Provided logistical support, including scheduling, coordinating materials, and preparing event layouts.
- Performed administrative tasks such as data entry, file management, and handling email correspondence.

Educational Opportunity Program, Newark, NJ June 2022 – August 2022

Teaching Assistant/Tutor

- Provided academic guidance and support to incoming freshmen in subjects including Computer Science, Mathematics, and Humanities during a pre-college summer program
- Conducted personalized one-on-one tutoring sessions, aiding students in syllabus comprehension and exam preparation

PROJECTS

- **Healthcare Database Management System** – Designed and implemented a comprehensive Healthcare Management System using MySQL, PhpMyAdmin, HTML and CSS aiming to streamline the management of doctor's receptionists, patients, medical records, and appointments. Enables a doctor's office receptionist to perform many operations, including searching patient records, updating patient information…etc.
- **Instant Messaging Platform** – Led the creation of a fully functional chat platform using front-end technologies (HTML, CSS, JavaScript), server-side scripting (PHP), and database management (MySQL) to facilitate seamless user interaction and instant messaging. Integrated real-time communication, dynamic active user lists, and a secure account creation module with JavaScript validation to improve engagement and usability.
- **Compiler –** Designed and implemented a compiler with lexical analysis, syntax parsing, semantic analysis, and code generation. Built a lexer for tokenization, a parser for AST construction, and an error-handling system for semantic checks.

CAMPUS INVOLVEMENT

Hindu Y.U.V.A, New Jersey Institute of Technology, Newark, NJ January 2024 – Present

Executive Secretary

- Assisted in planning meetings, coordinating events, and keeping track of important deadlines and activities. Recorded meeting minutes, maintained records, and ensured timely communication between members and leadership.
